

## Effective Strategy Execution with EPM Suite

EPM Suite offers everything needed to quickly create and cascade Scorecards, performance dashboards, and enterprise reports. It contains additional features to help manage initiatives, risks, operations, benchmarking, and resources. EPM Suite supports a wide range of performance management models and practices.

## Align your business units and processes

- Align all of your business units and processes within one performance management portal.
- Integrate strategy into the planning, budgeting, management reviews, and reporting processes.
- Align corporate, business units, support units, external partners, and boards with strategy.

## Translate Strategy into Action

- Clearly define your business strategy by breaking it down into easily understandable and measurable elements such as perspectives, strategic objectives, and KPIs.
- Executives can view detailed tables and graphs showing trends, historical information, and underlying data for each metric to support their decisions.
